

Coffee Shop

Sales Analysis

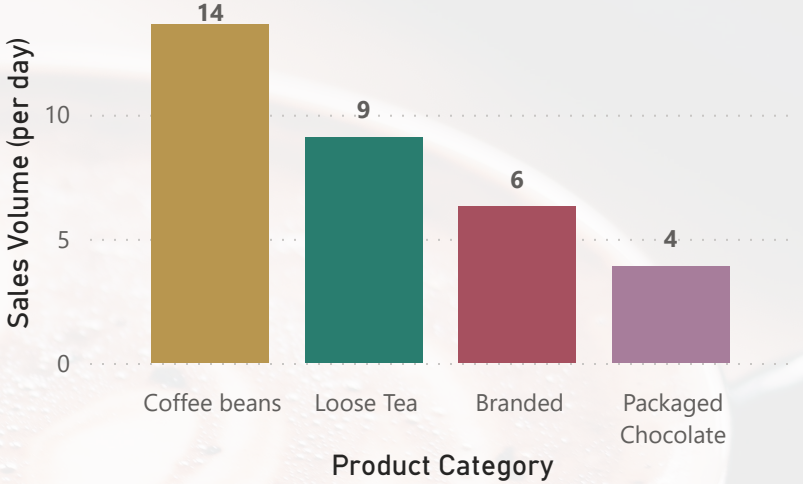

Sales Revenue by Month

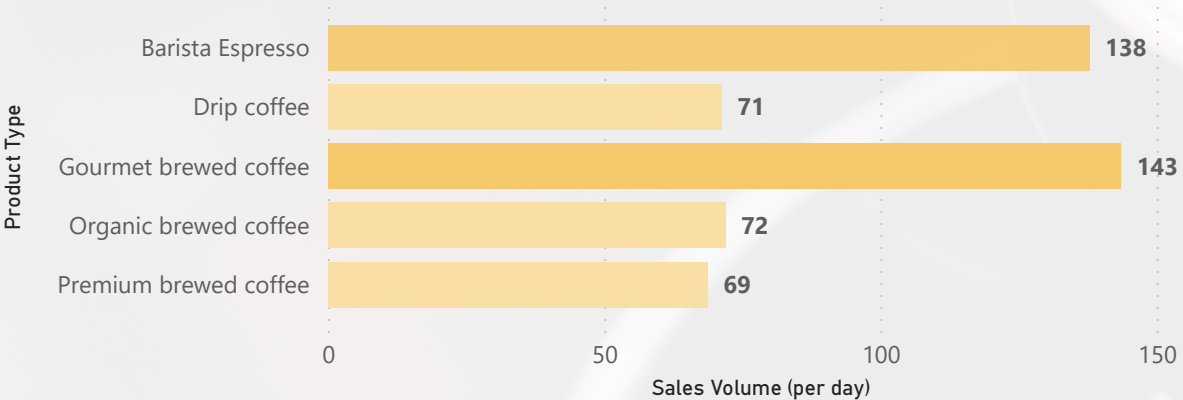

Sales Revenue by Product Category

Sales Volume (per day) of Non-Beverage Products by Category

Sales Volume by Coffee Type

Sales Volume of Beverages by Time of Day (per day Analysis)

Interpretation

The **column chart** on the left illustrates an increasing trend in total sales revenue over time. The **donut chart** displays that Coffee and Tea are the product categories contributing the most to the total revenue, together representing approximately 67% of the total revenue. The **column chart** on the right represents the daily sales volume of non-beverage items, providing valuable information for inventory management. The **bar chart** displays the daily sales volume of coffee by type, with types Barista Espresso and Gourmet Brewed Coffee being the top sellers. The **line chart** illustrates the workload of beverage preparation by hour. It clearly shows that the peak hours are from 8 am to 10 am with more than 100 beverage orders per hour.
